Indexes to Volume 57

Index to Subjects

A

AAMRL--Supplement A
AIDS and the World of the 1990's
  Armstrong Lecture 1986--1208
Acceleration Tolerance
  and mitral valve prolapse--986
  effect of negative G strap--301
  effect of seat cushions on human response--113
  effects on coronary circulation--5
  whole-body linear--1088
Accidents
  and airport preparedness--77
  helicopter--603
Acquired Immune Deficiency Syndrome
  aspects of--1208
Adrenal Hypertrophy
  in the suspended rat--162
Aerobic Capacity
  and orthostatic tolerance--1158
  reduced by space flight--426
Aerobic Work Capacity
  age and gender as factors--17
Aeromedical Evacuation
  the inaugural flight--613
Aerospace Medicine Physician
  training in the USSR and the USA--376
Aerospace Medicine Reviews--86, 384, 617, 1008
Age
  and visual fatigue--54
  as a factor in aerobic capacity--17
Agricultural Spraying
  in Israel--610
Air Ambulance
  regulations--699
Air Pollution
  persistence of acute effects of ozone exposure--1136
Air Traffic Control Office
  and stress--263
Air Transport
  of the neonate--183
Aircraft
  agricultural spraying in Israel--610
  and auditory risk--103
Aircrew
  acceleration tolerance with mitral valve prolapse--986
  comfort of seat cushions--113
  eye and respiratory irritants from jet engine exhaust--1104
  study of spontaneous pneumothorax in USAF--939
  systolic time intervals in pilots and non-pilots--332
Airport Disasters
  preparedness plan--77
Airports
  emergency medical services--459
Aldosterone
  effect of hydration on--420
Altitude Stress
  and protein diet--1154
Altitude
  and glycolysis--256
Alveolar Vessels
  enlarged and responses to acute hypoxia--575
Amphetamine
  and oxygen toxicity--777
Anabolic Steroids
  as a countermeasure against osteoporosis--174
Anaerobic Power
  comparison of men and women--636
Anaerobic Threshold
  and bedrest--325
Anemia
  in rats during suspension--36
Antarctic Personnel
  health and performance of winter-over--954
Anti-G Training
  Japanese fighter pilots--1029
Anticholinergic Drugs
  dose response effects and pharmacokinetics--659
Antimotion-Sickness Drugs
  effect on habituation to motion--539
  effect on human performance--236
Artemia Cysts
  effect of space flight factors on--583
Aseptic Necrosis
  in caisson workers--569
Atelectasis
  acceleration--432
Atropine Sulfate
  effect on performance--1185
Atropine
  and heat-stressed rat model--1061
  effect on human tracking performance--654
  effect on thermoregulatory responses--1050
Aviation
  progress--472
Aviation Psychology Symposium
  introduction--1179
  third--1179

B

Bedrest
  effect on aerobic capacity--17
  effect on anaerobic threshold--325
Behavior
  effect of ionizing radiation exposure--250
Bends
  after hypobaric chamber training--600
  and decompression tables--149
  and venous bubbling--223
Birth Defects
  air transport of the neonate--183
Blood
  effect of hyperbaric oxygen on--664
Blood Flow
  effect of gravity on pulmonary--449
  effect of hypoxia on--1044
  effect of vibration on--1082
  effects of +Gz on coronary--5
Blood Pressure
  in fighter pilots after 12-15 years service--367
  involvement of PGI2--688
Blood Volume
  by impedance--49
Body Temperatures
  male/female responses following exercise--966
Bone Formation
  and space flight--1125
Bone Maturation
  in immobilized Rhesus monkeys--157
  of non-weight bearing mandibles--157
Brain
  stimulation of muscarinic acetylcholine--250
Bubble Formation Model
  use to calculate decompression tables--149

C

Caffeine
  effect on overnight performance in shiftworkers--241
Caisson Workers
  and aseptic necrosis--569
Cardiac Output
  involvement of PGI2--688
  single breath determination in man--759
Cardiocirculatory Responses
  to upright tilt--787
Cardiovascular
  responses of women to LBNP--531

Cardiovascular Disease
and hearing loss--348
longitudinal study in US Navy pilots--438
Cardiovascular Dynamics
associated with tolerance to LBNP--413
Cardiovascular Epidemiology
of U.S. Navy's "1000 Aviators"--597
Cardiovascular Receptors
and fluid volume control--267
Cardiovascular Reflex Status
abnormal in Indians--168
Cases from the Aerospace Medicine Residents Teaching File--#8, 82; #10, 186; #11, 381; #12, 482; #13, 715; #14, 805; #15, 1109
Cathode Ray Tubes
color--555
Central Blood Flow
postradiation in primates--578
Central Serous Retinopathy
in pilots--457
Cerebral Arterial Air Embolism
treatment of--1201
Cerebral Arterial Gas Embolism
treatment of--931
Cerebral Venous Thrombosis
at altitude--71
Cerebrospinal Fluid Transfer
of tobramycin--664
Challenger Tragedy
The Day That Happened--28 January, 1986--403
Chemical Warfare
antidotes to--654
Chemical Warfare Nerve Agents
atropine as an antidote--654
Cholinergic Drug Potency
in rats--1061
Choroidopathy
in pilots--457
Circadian Resynchronization
and environmental light-dark cycle--1144
Circadian Rhythm
resynchronization--1144
Supplement B
Circadian Variations
of systolic time intervals--642
Clothing
chemical protective and vision performance--144
protection against wind chill--23
Cockpit Resource Management
and attitude-performance--1198
Cockpits
and noise--103
Cold
stress in men and women--966
Cold Responses
in men and women--27
Cold Stimuli
external and internal in men and women--27
Cold Water Immersion
formulae for determining metabolic rate during--671
Color Combinations
under different chromatic ambient illuminations--555
Convulsions
oxygen-induced in mice--777
Coriolis Stimulation
implications for space motion sickness--229
Coronary Circulation
effects of +Gz on--5
Cosmic Rays
effects of--583

D

Deafness
in an air traffic control officer--263
Decompression Sickness
after hypobaric chamber training--600
and hypobaric chamber operation--1097
and recompression therapies--561
effect of pressure suit--223
modes to reduce--569
use of bubble formation model--149
Decompression Tables
a new set--569
use of bubble formation model to calculate--149
Diaphragmatic Hernia
in the newborn--183
Diet
manipulation and exercise in the heat--31
Diffuse Pulmonary Ossification
in a pilot--696
Displacement Thresholds
in central and peripheral vision--548
Displays
analog and digital--1181
use of colors--555
Divers
cause for preventing diving in Royal Navy--1039
pulmonary barotrauma in--931
recurrent pulmonary barotrauma--1039
Diving
comparison of recompression therapies--561
tables--149
Doctor Stuff--88, 285, 390, 486, 620, 718, 1013
Drug Abuse
Guest Editorial-Reagan N--201
Drug-Induced Stereotypy
effects of nitrogen and helium at pressure--769

E

Editorial
The Day That Happened--28 January 1986--403
Emergency Medical Services
at airports--459
Emesis
effect of macular ablation--1066
sudden,following parabolic flight maneuvers--343
Endocrine Responses
to hypoxia--960
Endorphins
and motion sickness--647
Endotoxemia
hypoxia-induced in primates--1044
Endurance
effect of age, weight, and metabolic rate on--974
Errata--807, 1111
Ethanol
effect on performance--1185
Exercise
40-year followup of U.S. Navy's "1000 Aviators"--597
and hypoxia--960
and ozone exposure--1136
effect of hemodilution at high altitude--313
effect of hypoxia on heart glycogen utilization during--754
in cold air and male/female responses--966
induced anaerobic threshold--325
thermoregulatory responses to--1050
ventilatory response to--1165
Eye Irritants
in jet engine exhaust--1104
Eye Movements
head transition times measured--218
responses to head inertia--336

F

Fear of Flying
differential diagnosis of--131
Fighter Aircraft
pilot G tolerance--733
Fighter Pilots
Japanese and training--1029
hypertension after 12-15 years service--367
proteinuria after high +Gz exposure--122
Firefighters
smoking and nonsmoking and FAMS--980
Flight
inaugural aeromedical evacuation--613
Flight Crew Composition
on helicopter medical service--1176
Flight Nurse
history of aeromedical evacuation--613
Flight Surgeon
and psychiatry--126
analysis of Naval Special Boards 1974-1983--370
Flight Training
mishaps and instructor experience--65
significance of recurrent childhood respiratorydisorde--706
Fluid Volume Control
and cardiovascular receptors--267
Flunarizine
and motion sickness--45
Flying
and danger, joy and fear--131
Flying Status
and neuropsychological tests--950
and the Naval Special Board of Flight Surgeons--370
Force Position Controls
mini-stick and macro-stick--792
Free Alveolar Macrophages
in smoking and nonsmoking firefighters--980

G

+Gz Tolerance
and physical training--709
+Gz-Induced
loss of consciousness--997
G Tolerance
and women--745
L-1 maneuver--1035
model--733
Gender
as a factor in aerobic capacity--17
responses during and following exercise in the cold--966
Gender Differences
anaerobic power--636
responses to cold exposure--27
Germany
early days of space medicine--633
Glucocortiocid Receptor Content
in the suspended rat--162
Glycolysis
and altitude--256
Gonorrhea
in Korea--1170
Gravitoinertial Force Level
implications for space motion sickness--229

Gravity
aspect of osteoblast histogenesis--1125
Grounding of Aircrew
due to spontaneous pneumothorax--939
Guest Editorial
Kaufman, WC--299
Kirsch, K--633
Reagan, N--201
Saito, I--731
Winau, R--633

H

Habituation to Motion
effect of antimotion sickness drugs on--539
Harry G. Armstrong Lecture
1985, Meehan, JP--267
1986, Osborn, JE--1208
Head Inertia
adaptation to--336
Head Movements
and space motion sickness--443
Head Transition Times
measurement of--218
Head-Down Tilt
and hemodynamic response--406
Head-Up Tilt
effect on Indian pilots and non-pilots--332
responses to--420
Health
40-year followup of U.S. Navy's "1000 Aviators"--597
exposure to molten salt--362
holistic medicine--1102
medical care of military aviators--462
of Antarctic winter-over personnel--954
stress and time perception--1102
Hearing Loss
and cardiovascular disease--348
and cockpit noise--103
hysterical deafness--263
Heart
effects of +Gz on--5
Heart Glycogen Utilization
effect of hypoxia during exercise--754
Heat Loss
associated with wind chill--23
Heat
and skilled performance--59
and work and diet manipulation--31
stress--144, 1061
thermoregulatory responses in man--1082
Heatstroke
and anticholinergic drugs--1061
Heatstroke
mortality factors--974
Helicopter Accidents
underwater egress from--603
Helicopter
crashes at sea--603
emergency medical and physicians presence--1176
Helium at Pressure
effects on drug-induced stereotypy in mice--769
Hemodilution
at high altitude--313
Hemodynamics
and lower body negative pressure--406
and orthostatic tolerance--413
High +Gz Forces
and proteinuria in fighter pilots--122
High Altitude
and spironolactone--787
hemodilution at--313
stress--1154
High G Exposure
influence of inspired oxygen concentration on--432
Hoffman Reflex
effects of muscle vibration on--681
Holistic Medicine
and a space-time model of health--1102
Horripilation
in men and women with cold stimuli--27
Hyperbaric Oxygen
effect on the blood--664
Hypergravity
effect on lymphocytes--1131
Hyperoxia
effect on post exercise ventilation--1165
Hypertension
in fighter pilots after 12-15 years service--367
Hyperthermia
effect of age, weight, and metabolic rate on--974
Hypobaric Chamber
decompression sickness in operators--1097
Hypothermia
power spectrum of shivering--1150
Hypoxemia
effects on renal function--782
Hypoxia
and changes in glycolytic intermediates--256
and heart glycogen utilization during exercise--754
and vision with night vision goggles--318
effect on post exercise ventilation--1165
endocrine responses to--960
hazard to persons in artificial atmosphere--1044
response of enlarged alveolar vessels to acute--575

I

Immersion Protection
partial coverage wet suits--1056
Immersion Suits
requirements in North Atlantic--276
Immunology
and space flight--213
Impact
human response in restraint systems--301
Impact Test
on seat cushions--113
Impedance Cardiography
to determine cardiac parameters--49
Indians
orthostatic tolerance of normal--168
Injuries
sprain and strain--800
Inspiratory Volume
effect by L-1 maneuver--1035
Instructor Experience
and Naval Training Command mishaps--65
Insulation
thermal--993

J

Japan
anti-G training of fighter pilots--1029
manned space program--731
Jet Engine Exhaust
eye and respiratory irritants in--1104
Jet Lag
Supplement B

K

Korea
prevalence of gonorrhea in--1170

L

L-1 Maneuver
effect on inspiratory volume--1035
Laboratory Visits
editorial, Leverett SD Jr--1
Left Bundle Branch Block
historic aeromedical perspective on--462
Letters to the Editor--76, 85, 185, 287, 389, 488, 619, 622, 1014
Lindberg Lecture
Engen, DD--472
Linear Thresholds
whole-body--1088
Loss of Consciousness
+Gz-induced--997
Louis H. Bauer Lecture
1985, Yardley, JF--179
1986, Murray, PR--1006
Low Back Pain
in pilots--694
Lower Body Negative Pressure
cardiovascular dynamics--413
cardiovascular responses of women to--531
hemodynamics response to--406
Lung Impedance Perfusion
measurement--449
Lymphocytes
effect of hypergravity on--1131

M

Macular Ablation
and emesis--1066
Management
training for pilots in the cockpit--1198
Manned Space Flight
evolution or revolution?--179
Manned Space Program
in Japan--731
Mass Disaster
and airports--77
Measurement
of head transition times--218
Medical Practice
from medical to aeromedical--462
Men and Women
comparison of anaerobic power--636
Mental Function
effect of hemodilution at high altitude--313
Metabolic Rate
during cold water immersion--671
Mishaps
flight, and instructor experience--65
Mitral Valve Prolapse
and acceleration tolerance--986
Model
air ambulance regulations--699
for predicting G tolerance--733
heat-stressed rat--1061
Molten Salt
topical effects on rat integument--362
Mortality Factors
and heatstroke--974
Motion Perception
and displacement thresholds--548

Motion Sickness
and endorphins implication--647
and naloxone--647
and vestibular system--1066
arousal and stability--137
calcium antagonists in the prevention of--45
in early part of space missions--1071
prevention by use of drugs--137
Motivation
and space flight--203
to fly--131
Mountain Sickness
acute--960
and cerebral thrombosis--71
effect of spironolactone on--543
prevention and treatment--71
Muscle Fatigue
and shivering--1150
Muscle Vibration
and H-Reflex in man--681

N

Nalozone
and motion sickness--647
Naval Training Command Mishaps
and instructor experience--65
Negative G Strap
evaluation--301
Neonate
air transport of--183
Neuropsychological Data
on U.S. Army aviators--950
Night Vision Goggles
hypoxia and visual performance--318
Nitrogen
effects on drug-induced stereotypy in mice--769
Noise
and cardiovascular disease--348
and hearing loss in aircrew members--348
in cockpits and auditory risk--103
North Atlantic
immersion suit requirements--276

O

On Board Oxygen Generation System
for USAF--432
Orthostatic Tolerance
and aerobic capacity--1158
and hemodynamics--413
evaluation--406
of normal Indians--168
Osteoblast Histogenesis
during simulated weightlessness--1125
Osteon
growth--157
Osteoporosis
weightlessness effect on--174
Oxygen Requirements
for future USAF aircrews--432
Oxygen Toxicity
and amphetamine--777
Oxygen Uptake
and aerobic capacity--17
Ozone
effects of exposure--1136

P

Parabolic Flight Maneuvers
implications for space motion sickness--343
Performance
and cockpit attitude--1198
effect of atropine sulfate on--1185
effect of ethanol on--1185
effect of transdermal scopolamine on human--236
effects on whole-body vibration--792
in shiftworkers--241
of Antarctic winter-over personnel--954
pilot--1194
pilot, and analog and digital displays--1181
psychological aspects of space flight on--203
self-reported pilot--466
Personnel
Antarctic and performance--954
Pharmacokinetics
atropinized heat
stressed rat model for testing--659
Photometric Analysis
of free alveolar macrophages--980
Physical Conditioning
current status--712
Physical Fitness
prevention of sprain and strain injuries--800
Physical Training
and +Gz tolerance--709
Physician
presence on a helicopter emergency medical service--1176
Pilot Selection
and time-sharing ability--1194
Pilots
and cardiovascular disease--438
and central serous retinopathy--457
and choroidopathy--457
diffuse pulmonary ossification in--696
G-tolerance and--733
G-training of fighter, Japan--1029
cockpit management training--1198
low back pain in--694
neuropsychological data on U.S. Army--950
performance--1194
performance measurement--466
right bundle branch block--591
spontaneous pneumothorax in--696
tests for acceptance--950
training--997
use of analog and digital displays--1181
Plasma Renin Activity
effect of hydration on--420
Plasma Vasopressin
effect of hydration on--420
Plasma Viscosity
elevation with simulated weightlessness--426
Plethysmography
to estimate pulmonary perfusion--449
Post-Exercise
and ventilatory response--1165
Post-Radiation Hypertension
in primates--578
Power Spectrum
of shivering--1150
Protective Clothing
and thermal insulation--993
Protein Diet
and altitude stress--1154
Proteinuria
in fighter pilots after high +Gz exposure--122
Psychiatry
and the flight surgeon--126
Psychology
space flight aspects--203
Pulmonary Barotrauma
in submarine escape trainees--1201
recurrent--1039
Pulmonary Blood Flow
during acute hypoxia--575

R

Radiation
ionizing and effect on behavior--250
Radiation Sickness
and hypoxia
induced endotoxemia--1044
Radiogenic Hypodipsia Reversal
by stimulation of brain--250
Rat Model
atropinized heat-stressed--659
Recompression
and submarine escape training--1201
in divers--931
Recompression Therapy
and decompression sickness--561
Recurrent Childhood Respiratory Disorders
significance in flying--706
Renal Function
effects of hypoxemia and mechanical ventilation--782
Respiratory Irritants
in jet engine exhaust--1104
Restraint Systems
human impact response in--301
Right Bundle Branch Block
in pilots--591

S

Scopolamine
transdermal and human performance--236
Seat Cushions
and human response to +Gz impact--113
Seat-Pan Display
use as a training device--1189
Semicircular Canal Function
technique for evaluating--667
Sensory Motor Performance
vibration alters--681
Shivering
power spectrum of--1150
Simulated Aerial Combat Maneuvering
current status--712
Single Breath Cardiac Output
validations and applications in man--759
Skilled Performance
under an environmental stressor--59
Skin
damage from molten salt--362
Sleep
and overnight performance in shiftworkers--241
Supplement B
Sleep-Wake Cycles
and circadian rhythm--1144
Smoking and Nonsmoking Firefighters
analysis of FAMS--980
Space Adaptation Syndrome
remedy for--137
Space Flight
and anabolic steroids--174
and bone formation--1125
aspects of longer flights--203
effects of cosmic rays--583
evolution or revolution--179
immunological analyses--213
psychological aspects--203
Space Medicine in Germany
early days--633
Space Motion Sickness
and coriolis stimulation--229
etiology of--1071
implications for the etiology of--443
implications of parabolic flight maneuvers--343
Space Shuttle Crewmembers
immunological analyses--213

Space Station
  cardiovascular research in--1000
  considerations for design of--1000
Space Suits
  effect on decompression sickness--223
Space-Time Model
  of health--1102
Spinal Cord Injuries
  and decompression sickness--561
Spironolactone
  and tilt--787
  effect on acute mountain sickness--543
Spontaneous Pneumothorax
  in a pilot--696
  study of in USAF aircrew population--939
Sprain and Strain Injuries
  in the Navy--800
Straining Maneuver
  L-1 maneuver--1035
Stress
  +Gz effects on coronary circulation--5
  and hearing loss--263
  cold, in men and women--966
  gravitational--531
  heat--144, 1061
  heat and skilled performance--59
  high altitude--1154
  hypobaric hypoxic and serum enzymes--1154
  on airline pilots--466
  orthostatic in Indians--168
  thermal--993, 1050
Submarine Escape Training
  and pulmonary barotrauma--1201
Suspension
  head-down and anemia in rats--36
Sympathomimetic Drugs
  prevention of motion sickness--137
Systolic Time Intervals
  circadian variations of--642
  in Indian pilots and non-pilots--332

T

Technicians
  decompression sickness in hypobaric chamber operation--1097
Temperature Cycles
  and circadian rhythm--1144
The Last Decade
  1986 Bauer Lecture--1006
Thermal
  stress--1050
Thermal Insulation
  of materials with aerospace application--993
Thermoregulatory Effects
  of atropine--1050
Thoracic Blood Volume
  use of thoracic impedance for determining--49
Thoracic Impedance
  for determining thoracic blood volume--49
Thresholds
  for detection of whole-body movement--1088
Thymic Involution
  in the suspended rat--162
Tilt
  effect of spironolactone--787
Tilt-Table
  head-up tilt--168
Time
  strategies--1102
Time-Sharing
  and ZITA--1194
Tobramycin
  cerebrospinal fluid transfer--664
Tolerance
  and physical conditioning--712
Tracking
  and whole-body vibration--792
  central and peripheral vision and displacement thresholds--548
Training
  hypobaric chamber--600
  of aerospace medicine physicians in the USA and the USSR--376
  pilot--997
  seat-pan display as a device for--1189
  submarine escape--1201
Transmeridian Flight
  Supplement B
Treatment
  of cerebral arterial gas embolism--931

U

U.S. Navy's "1000 Aviators"
  40-year followup--597

V

Venous Bubbling
  and bends--223
Ventilatory Control
  post exercise--1165
Vestibular System
  and motion sickness--1066
Vestibular-Visual Conflict
  in pitch and yaw planes--1071
Vestibulo-Ocular Reflex
  and visual-vestibular interaction--336
  evaluation of--667
Vibration
  effect on blood flow--1082
  thermoregulatory responses in man--1082
  y plus yaw--1075
Vision
  age, environment and accommodation effects--54
  and hypoxia with night vision goggles--318
  during tracking--548
  effects of age on--54
  head-up/head-down transition--218
  in NBC gear and heat--144
Visual Performance
  and night vision goggles--318
  while wearing chemical protective clothing--144

W

Weightlessness
  and biological processes--1125
  and orthostatic tolerance--1158
  and plasma viscosity elevations--426
  effects on bone demineralization--174
  simulated and anaerobic threshold--325
Wet Suits
  thermal performance of partial--1056
Whole-Body Vibration
  and tracking--792
Whole-Body, Linear Movement
  in the horizontal plane--1088
Wind Chill
  and clothing protection--23
Women
  and G tolerance--745
  cardiovascular responses to LBNP--531
Work
  effect of dietary manipulation and exercise in the heat--31
Workload
  day-night schedule for shiftworkers--241
  reduction following bedrest-induced peak VO2--17

Y

Y Plus Yaw Vibration
  subjective effects of--1075
You're the Flight Surgeon--89, 189, 283, 387, 487, 621, 719, 808, 1011, 1112

Z

Zero Input Tracking Analyzer
  and time-sharing ability--1194

Index to Supplement A, October 1986

Subjects

Acceleration
  training with centrifuge--A13
Aerospace Environment
  and toxic hazards--A49
Aerospace Medical Research Laboratory
  50th anniversary introduction--A1
Aerospace Medicine
  contributions to clinical medicine--A54
Aircraft
  training for pilots in high-performance--A13
Air Force Systems
  future--A64
Automation
  in future U.S. Air Force systems--A78
Biodynamics
  the key to flight--A32
Clinical Medicine
  contributions to aerospace medicine--A54
Crew
  role of in space explorations--A69
Fitts, Paul M.
  tribute to a pioneer--A30
Flight
  biodynamics, the key--A32
Future
  search for in the Air Force--A64
GLOC
  cause and prevention--A13
Harry G. Armstrong Dedicatory Address--A3
History
  impact of changes on 50 years of U. S. Air Force research and development--A83
  of space medicine--A58
Human Engineering
  history of at AMRL--A37
Human Factors
  tribute to Paul M. Fitts--A30
Introduction
  to supplement--A1

Life Support
  development of at AMRL--A44
Man
  role in exploration of space--A69
Man and Mission
  next 50 years--A24
Performance
  human and biodynamics--A32
  human in the design of future U.S. Air Force systems--A78
  training for crews in space--A69
Pilots
  life support systems--A44
  training for high-performance aircraft--A13
Programs
  research at AAMRL--A37
Psychological Research
  history of at AAMRL--A37
Research
  at AAMRL for the future--A24
Research and Development
  50 year in the U.S. Air Force--A83
Space
  role of man in exploration of--A69
Space Medicine
  beginnings of--A58
Toxic Hazards
  in aerospace environment--A49
Toxicology Research
  evolution in U.S. Air Force--A49
War Years (1941-46)
  at Wright Field--A6

Index to Supplement B, December 1986

Subjects

Aircrew
  layover sleep--B10
  sleep and circadian rhythm operating transatlantic flight--B53
Circadian Rhythm
  disrupted by multiple time zone flights--B3
  effect of sleep and sleepiness in aircrews operating transatlantic flights--B53
Daytime Alertness
  and nocturnal sleep after transmeridian flights--B43
Flight Crew
  sleep and wakefulness after multiple time zone flights--B3
Introduction
  to supplement--B1
Jet Lag
  age as a factor--B10
  before and after transmeridian flights--B29
  eastward flights--B10
  westward flights--B10
Nocturnal Sleep
  and daytime alertness after transmeridian flights--B43
Project Participants and Affiliations
  sleep and wakefulness study--B2
Sleep
  after multiple time zone flights--B3
  aircrew layover--B10
  and circadian rhythm in aircrews on transatlantic routes--B53
  before and after transmeridian flights--B29
  before and after transoceanic flights--B14
  in international aircrews--B1
Transmeridian Flights
  nocturnal sleep and daytime alertness after--B43
  sleep and wakefulness before and after--B29
Transoceanic Flights
  sleep and wakefulness before and after--B14
Wakefulness
  after multiple time zone flights--B3
  before and after transmerdian flights--B29
  before and after transoceanic flights--B14
  in international aircrews--B1
